4. First I Plant A Seed

First I plant a seed, (First I plant a seed)
In the corner of my mind (In the corner of my mind)
It's a seed of love, a very special kind
First I plant a seed
Then I water it with thoughts, (Then I water it with thoughts)
Of love and kindness too, (Of love and kindness too)
Then I watch it grow and grow and grow and grow
Then I see it show in everything I do

First I plant a seed, (First I plant a seed)

A very special kind
First I plant a seed (In the corner of my mind)
Then I water it with thoughts, (Then I water it with thoughts)
Of friends so dear and true, (Of friends so dear and true)

5. That's What Makes The World Go 'Round

I see you and you see me and we're both so different
That's what I like about you and me, we're both so different
Like the lions and the tigers and bears and the elephants
And that's what makes the world go 'round

I like you and you like me and we're both so different
And it's ok to be you and me and be so different
Like the lions and the tigers and bears and the elephants
The bees and the birds and the fish and the crocodiles
And that's what makes the world go 'round

I know you and you know me and we're both so different
That's what's so great about you and me, we're both so different
Like the lions and the tigers and bears and the elephants
The bees and the birds and the fish and the crocodiles
The ducks and the geese and the cows and the horses
And that's what makes the world go 'round

I like you and I like me
And I think the world should be one happy family

Like the lions and the tigers and bears and the elephants
The bees and the birds and the fish and the crocodiles
The ducks and the geese and the cows and the horses
And the clouds in the sky and the stars and just everything
And that's what makes the world go 'round
That's what makes the world go 'round
That's what makes the world go 'round
Mooooooooo!

6. Can Do (The Affirmation Song)

I can do anything
Yes I can, yes I can
I can do anything
'Cause I know who I am

I am good
I am smart
'Cause I have love inside my heart
And I can do anything...Yes I can

I can be anything
Yes I can, yes I can
I can be anything
'Cause I know who I am

I can be quiet
I can be brave
So I'll never be afraid
'Cause I can do anything...Yes I can

Can do, Can do
Oh I was made to be what I want to
Can do, Can do
I know if I believe I can, I can do most anything.....

I can do anything
Yes I can, yes I can
I can do anything
'Cause I know who I am

I am good
I am smart
'Cause I have love inside my heart
And I can do anything...Yes I can
Yes I can.....Yes I can
Yes!

9. House Of The 3rd Pig

This is the house of the 3rd pig, the 3rd pig, the 3rd pig
This is the house of the 3rd pig...
This is the house that I'll build

Once upon a time there were three little pigs
Two made houses of hay and twigs
But the 3rd little pig made a house of brick
A house so beautiful, strong and big

Brick number one was made of love
Two and three were joy and fun
Four was kindness and five was truth
This is a house that's built for good

This is the house of the 3rd pig, the 3rd pig, the 3rd pig
This is the house of the 3rd pig..
This is the house that I'll build

Brick number six was helpfulness
Seven was happiness, eight was health
Nine was laughter and ten was might
And on and on he built it right

This is the house of the 3rd pig, the 3rd pig, the 3rd pig

This is the house of the 3rd pig..
This is the house that I'll build

This is the house of the 3rd pig, the 3rd pig, the 3rd pig
This is the house of the 3rd pig..
This is the house that I'll build

Brick by brick, slow or fast
A house of love is built to last

10. There's Something In You

There's something in you that always knows
That always wears a smile
There's something in you that always shows the way
to do what's right
A little small voice inside your head,
So still, so wise, so true
Is your guiding light, so listen tonight to what it's telling you

Just listen, just listen
And hear what it's saying to you
Just listen, just listen
For something so special is calling to you

There's something in you that always knows
That always wears a smile
There's something in you that always shows the way
to do what's right
A little small voice inside your head,
So still, so wise, so true
Is your guiding light, so listen tonight to what it's telling you
It's your guiding light, so listen tonight to what it's telling you

11. Here Inside Of Me

Somewhere deep inside of me
Always there to understand
Always everywhere I am
Here inside of me

In my heart and in my soul
In my every thought and dream
Always in complete control
Right here inside of me

The love of God surrounds me
The peace of God protects me
The light of God it guides me
Where I need to be

Somewhere deep inside of me
Angels sit with folded wings
Watching over everything
Here inside of me

Here to fill my every need
Here to keep me safe from harm
And I'll never be afraid
With God inside of me

The love of God surrounds me
The peace of God protects me
The light of God it guides me
Where I need to be

The love of God surrounds me
The peace of God protects me
The light of God it guides me
'Cause God's inside of me, inside of me
Right here inside, right here inside
Here inside of me
Right here inside, right here inside
Right here inside
Here inside of me, inside of me

12. Children Of The World

We're all God's children
All God's children
All God's children
The children of the world

We're a rainbow of color all are we
We are one, we are one
And we've come to make this world a better place to be
Together, in harmony

'Cause we're all God's children, all God's children
All God's children, the children of the world
Oh we're all in this together, all in this together
All in this together, the children of the world

We are bound to one another deeper than the eye can see
So be kind, fair and true
To the oceans, to the animals and to the trees and air
Let's show how much we care in all we do

'Cause we're all God's children, all God's children
All God's children, the children of the world
We're all in this together, all in this together
All in this together, the children of the world

All God's children, all God's children
All God's children, the children of the world
We're all in this together, all in this together

All in this together, the children of the world

We're One, One, One, One in the Spirit
All God's children, the children of the world
We're all in this together, all in this together
All in this together, the children of the world

All God's children, all God's children
All God's children, the children of the world
We're One in the Spirit, One in the Spirit
One in the Spirit, The children of the world

All God's children, all God's children
All God's children, The children of the world

13. There Is A Light

Inside each one of us there's a special place I know
A private place, a place so still, where we can go
Inside each one of us, there's part of all that lives
And in everything there's part of us, in each and every friend

There is a light within
That always shows me the way
Let my light shine, let it shine
Let in shine in you today

Inside each one of us, there's a secret place to go
A place that's safe, a place that's warm, a place for love to grow
And inside each one of us, imagination lives
It's in our minds, it's in our hearts
In everything that is...

There is a light within
That always shows me the way
Let my light shine, let it shine
Let in shine in you today

There is a light within
That always shows me the way
Let my light shine, let it shine
Let in shine in you today

There is a light
Let your lovelight shine
There is a light
