

Over The Sky and Under The Moon

Once upon a time, in a distant land
There lived a boy named Phylos
And Butaan was his friend
The days they laughed and played but every night that came
They 'd sit and think and wish and dream
And that's how it all began

Over the sky and under the moon
Under the yellow moon
Friends are born and learn to fly
Under the yellow moon

Young masters though they were
They knew without a doubt
Together they were family
That's what it's all about
And one day they would climb up to the mountain top
And there beneath a starry night
They dreamed how they would grow up.

Over the sky and under the moon
Under the yellow moon
Friends are born and learn to fly
Under the yellow moon

Over the sky and under the moon
Under the yellow moon
They'd close their eyes and how they'd fly
Under the yellow moon

They followed what their hearts believed
Under the yellow moon...

All You Have To Do Is Be A Friend

Wanna be friends
And do what good friends do
We could read a book
Or slay a dragon or two
You could play with my toys
We could do it together

What's your name?
Where do you live?
Want to come to my house
I've got some marbles I could give you,
We could watch t.v.
We could do it together

Wanna be my friend
Wanna be my friend
If you wanna friend
All you have to do is be a friend

We could make some faces
Or do a dance
Or twirl in a circle 'til we both fall down
Or maybe play some games
We could do it together

I could tell you some jokes
And we could laugh a lot
Or we could eat ice cream
Or hold our breaths 'til we drop
Or we could sing this song
We could do it together

Want to be my friend
Want to be my friend
If you want a friend
All you have to do is be a friend

Circle of Friends

Oh we all go in a circle, oh we all go in a circle
Oh we all go in a circle, a circle of friends
Oh we all go in a circle, oh we all go in a circle
Oh we all go in a circle, a circle of friends

Shake a hand, and pass it on
Give a smile and pass it on
Say your name and pass it on

Oh we all go in a circle, oh we all go in a circle
Oh we all go in a circle, a circle of friends
Oh we all go in a circle, oh we all go in a circle
Oh we all go in a circle, a circle of friends

Shake a hand, and pass it on
Give a smile and pass it on
Say your name and pass it on

(Repeat)

How Does Your Garden Grow?

How does your garden grow?
It grows with love and light
With smiles and kindness,
Peace and good,
And makes the world alright. (repeat)

Oh when I plant a seed of love
Love grows big and strong and true
When I plant a seed of friendship
Friendship flowers for me and you

When I plant a seed of peace
Peace grows tall and far and wide
Til it reaches all around the world
And touches each heart inside

How does your garden grow?
It grows with love and light
With smiles and kindness,
Peace and good,
And makes the world alright. (repeat)

When I plant a seed of goodness
Goodness somehow makes it's way
And peeks its head from somewhere deep
To make the whole world feel ok

When I plant a seed of joy
Joy sprouts roots that reach down low
And happiness and laughter blossoms soon begin to show, Oh

How does your garden grow?
It grows with love and light
With smiles and kindness,
Peace and good,
And makes the world alright. (repeat)
